Ski resort Monterosa

The Monterosa Ski area is situated where the mountains rise up to form a bridge between Valle d 'Aosta and Piedmont: 180 kilometres of perfectly created pistes are supplied by technologically advanced facilities and have a touch of retro ambiance for lovers of powdery snow-scapes and the purest mountain setting.

Since many years the lifts of the **Monterosa Ski area** are the pride and the attraction of the places near the ski resort: **33 mostly new lifts** guarantee the transportation of **over 50,000 people / hour**.

From the lowest point at 1,212 meters above sea level, the ski-lovers are brought to the foot of the Monte Rosa Massif - all the way up to the 3275 meter high Punta Indren.

The slopes range covers all levels of difficulty and is suitable for every skier level. In addition, there are also interesting lift systems for children and beginners: The "magic carpets" are one of Monterosa Ski novelty introduced several years ago that bring today beginner safe and comfortable on the slopes.

180 kilometers of groomed slopes ensure skiing fun in the ski resort.

64 different routes, amid a diverse landscape with the Monte Rosa in the background. 40 slopes for intermediate skiers, 18 for beginners and 6 "black" slopes for experienced skiers.

The slopes are at over 170 km equipped with snow cannons, which provide most necessary snow cover in case of lack of snow.
